

# Sing Together

Ooo, ooo - I only used to sing when I was alone,  
or walking down an empty street with no one around  
and my voice was the only sound.

Now I've discovered what a joy it can be, to sing together,  
standing side by side in harmony, and the music can set me free.

*(side by side in harmony)*

If I go wrong, it's okay because you are with me.

We'll help each other reach the stars!

Life goes on, feel the beat, hear my song.

Let the music belong in your heart - Sing together!

Life goes on, feel the beat, hear my song.

Let the music belong in your heart - Sing together!

When you sing together you can be who you are. **(Who you are)**  
Just let the music take you anywhere, near or far. **(anywhere, near or far)**

Right beside me is where you are.

If I get scared it's okay because you are with me.

We'll help each other reach the stars! **(Aah, aah, aah)**

Life goes on, feel the beat, hear my song.

Let the music belong in your heart - Sing together!

Life goes on, feel the beat, hear my song.

Let the music belong in your heart - Sing together!

Let the music belong in your heart - Sing together!

(Rapping) Sing in the morning when you put your clothes on.

Sing when you're dancing to your favourite song.

Sing if you're happy, if you're wrong, if you're right.

Sing if you wake up in the middle of the night.

Sing to your family, sing to your friends.

Sing to your teacher when your lesson never ends.

Sing if you're scared of what tomorrow might bring.

**You don't need to worry** - if you just sing!

Life goes on (life goes on!) feel the beat, hear my song. (Hear my song!)

Let the music belong in your heart - Sing together!

Life goes on (life goes on!) feel the beat, hear my song. (Hear my song!)

Let the music belong in your heart - Sing together!

(Sing together, oh! We'll sing together, oh!)

Let the music belong in your heart - Sing together!

(Sing together, oh! We'll sing together, oh!)

Let the music belong in your heart -

We'll sing together
